**INFORMATION DISCLOSURE STATEMENT**

Sir:

Pursuant to 37 CFR §§ 1.97 and 1.98, applicant respectfully requests that the documents listed on the attached form PTO-1449, be made of record and considered in connection with the examination of this application. Copies of the listed documents are enclosed. A translation of the foreign language document is not readily available.

The documents submitted herewith were cited in a Search Report (copy enclosed) issued in a European application corresponding to the above-referenced application.

U.S. Patent No. 2,246,932 discloses a combination single and two stage vacuum pump.

European Publication EP 0715 077 A2 discloses a compressor for a single or multistage operation.

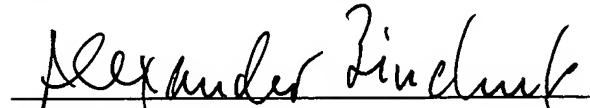

European Publication EPO 863 313 A1 discloses a two stage scroll compressor.

German Utility Model DE 202 02 190 U1 discloses a valve-controlled regulation of a multistage gas delivery pump having its inlet and outlet connected with a valve block (1) by suitable conduits. The valve block (1) includes check valves 2, 3 which are open in the flow direction until a predetermined switching point is reached. The relief valve (4) and the under-pressure valve (5) remain closed, and both stages operate in parallel with each other when the switching point is reached, a corresponding valve (4.5) opens, the relief valve (4) during pressure operation and the under-pressure valve (5) during the vacuum operation. Accordingly, in the flow direction, pressure increases behind the relief valve (3) and is reduced in front of the relief valve (2). Both relief valves (2,3) become closed. The volume flow is directed from a pressure side of pump stage (6) to the suction side of another pump stage (7), so that the pump stages operate seriesly. Below the switch point, the valves (2, 3, 4, 5) return to their initial position.

No fee is due with this Information Disclosure Statement as it is being submitted within three months from the date applicant became familiar with the

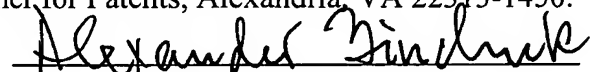

references (as evidenced by the date of the Report, November 7, 2005) and before the first Office Action on merits.

Respectfully submitted,

  
Alexander Zinchuk
